CAREER OBJECTIVE

Software Engineer focused on building scalable, reliable, and maintainable software applications, with strong foundations in software development, API integration, databases, debugging, problem-solving, and delivering efficient software solutions across the development lifecycle.

WORK EXPERIENCE

Software Engineer

Seztech Inc., Virtual

Oct 2025 - Present

- Developed and enhanced web applications for managing and selling 4–10 products across eCommerce platforms using React.js and modern web technologies.
- Built responsive and reusable React.js components for product management, workflows, forms, dashboards, and data-driven interfaces.
- Developed bulk Excel/CSV import functionality with data validation and field mapping, improving data-import productivity by 40% and significantly reducing manual effort.
- Integrated REST APIs with frontend applications to enable seamless data exchange between web interfaces and backend services.

Software Engineer • Internship

VMR Vision, Dehradun

Jan 2025 - Sep 2025

- Developed enterprise CRM applications and business modules across frontend, backend, API, and database layers.
- Designed and integrated RESTful APIs for efficient communication between application components and backend services.
- Optimized application workflows and data-processing operations, improving overall software efficiency by 20%.
- Built reusable components and modular application architecture, improving maintainability and reducing repetitive development effort.
- Implemented offline data capabilities using SQLite and AsyncStorage, enabling reliable application usage with limited connectivity.

EDUCATION

B.Tech, Computer Science

DEV BHOOMI GROUP OF INSTITUTIONS DEHRADUN UTTARAKHAND

2021 - 2025

TRAININGS / CERTIFICATIONS

Java Software Developer

Oct 2025

GFG, Virtual

PROJECTS

[SYS Power Yoga – Cross-Platform Live Yoga Studio Companion ↗](#)

Oct 2025 - Dec 2025

- Developed a cross-platform mobile application with modular architecture, improving development efficiency by 20% through reusable components and structured workflows.
- Implemented Firebase authentication, membership management, payment workflows, and session-based access controls, improving overall application reliability and user experience.

[Fast Fingers Game ↗](#)

Jul 2025 - Aug 2025

It is a speed typing game that calculates how fast and accurate a typist you are

SKILLS

• HTML

• HTML 5

• CSS

- CSS3
- Python
- Jira
- Shopify
- Node.js
- PHP
- JavaScript
- Git
- SQL
- WordPress
- Express.js
- React
- Cursor (GenAI)
- MySQL
- Backend development
- REST API

EXTRA CURRICULAR ACTIVITIES

- Represent college in Uttarakhand tech fest 2024,
Campus ambassador of College
